

**READ THIS FOR SAFE AND EFFECTIVE USE OF YOUR MEDICINE**  
**PATIENT MEDICATION INFORMATION**

**PrEUCRISA™**  
**crisaborole ointment**

Read this carefully before you start taking **EUCRISA** and each time you get a refill. This leaflet is a summary and will not tell you everything about this drug. Talk to your healthcare professional about your medical condition and treatment and ask if there is any new information about **EUCRISA**.

**What is EUCRISA used for?**

- **EUCRISA** is a non-steroid prescription medicine used on the skin to treat mild to moderate eczema (atopic dermatitis).
- **EUCRISA** is for topical use only. Do not use **EUCRISA** in your eyes, mouth, or vagina.
- **EUCRISA** is for adults and children 3 months of age and older.
- It is not known if **EUCRISA** is safe and effective in children under 3 months of age.

**How does EUCRISA work?**

The exact way **EUCRISA** works is not known. It is thought that it reduces the amount of substances in the body that trigger the rash and itchiness caused by eczema.

**What are the ingredients in EUCRISA?**

Medicinal ingredients: Crisaborole.

Non-medicinal ingredients: Butylated hydroxytoluene, edetate calcium disodium, mono- and diglycerides, paraffin, propylene glycol, white petrolatum.

**EUCRISA comes in the following dosage forms:**

White to off-white ointment containing 20 mg of crisaborole per gram (2% w/w).

**Do not use EUCRISA if:**

- you or your child are allergic to crisaborole or any of the other ingredients in **EUCRISA**.

**To help avoid side effects and ensure proper use, talk to your healthcare professional before you take EUCRISA. Talk about any health conditions or problems you may have, including if you:**

- are pregnant or planning to become pregnant. It is not known if **EUCRISA** may harm your unborn baby.
- are breast-feeding or plan to breast-feed. It is not known if **EUCRISA** passes into breast milk. Talk with your healthcare professional about the best way to feed your baby if you take **EUCRISA**.

**Tell your healthcare professional about all the medicines you take, including any drugs,**

**vitamins, minerals, natural supplements or alternative medicines.**

**How to take EUCRISA:**

- EUCRISA is usually applied twice daily. Use EUCRISA exactly as your healthcare professional tells you to use it.
- Do not use in your eyes, mouth, or vagina. Topical medicine is for use only on the skin.
- Rinse with water if this medicine gets in you or your child’s eyes, mouth, or vagina.
- Wash your hands after applying EUCRISA, unless you are using it to treat eczema on your hands. All caregivers who apply EUCRISA for someone else should wash their hands after applying it.

**Usual dose:**

- Apply a thin layer of EUCRISA to affected areas twice daily.
- Your healthcare professional will tell you how to use EUCRISA based on you or your child’s medical condition and response to the medicine.

**Overdose:**

Because EUCRISA is for topical use only, it is unlikely that you or your child will overdose on EUCRISA. If you or your child applies too much EUCRISA, thoroughly wipe it off.

If you think you, or a person you are caring for, have taken too much EUCRISA, contact a healthcare professional, hospital emergency department or regional poison control centre immediately, even if there are no symptoms.
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Missed Dose:**

If you or your child forget to use EUCRISA as directed, apply it as soon as you remember. Then go back to the regular dosing schedule. Do not apply twice as much the next time you use it.

**What are possible side effects from using EUCRISA?**

These are not all the possible side effects you may feel when taking EUCRISA. If you experience any side effects not listed here, contact your healthcare professional.

The most common side effect of EUCRISA is pain on the area where you applied it, such as burning or stinging.

<b>Serious side effects and what to do about them</b>			
Symptom / effect	Talk to your healthcare professional		Stop taking drug and get immediate medical help
	Only if severe	In all cases	
<b>VERY COMMON</b> <b>Application site pain:</b> such as burning or stinging.	<b>X</b>		
<b>RARE</b> <b>Allergic reactions:</b> EUCRISA may cause allergic reactions at or near the application site. These can be serious and may include hives, itching, swelling, and redness.			<b>X</b>

If you have a troublesome symptom or side effect that is not listed here or becomes bad enough to interfere with your daily activities, talk to your healthcare professional.

**Reporting Side Effects**

You can report any suspected side effects associated with the use of health products to Health Canada by:

- Visiting the Web page on Adverse Reaction Reporting (<https://www.canada.ca/en/health-canada/services/drugs-health-products/medeffect-canada/adverse-reaction-reporting.html>) for information on how to report online, by mail or by fax; or
- Calling toll-free at 1-866-234-2345.

*NOTE: Contact your health professional if you need information about how to manage your side effects. The Canada Vigilance Program does not provide medical advice.*

**Storage:**

Store below 25°C.

Keep out of reach and sight of children.

**If you want more information about EUCRISA:**

- Talk to your healthcare professional
- Find the full product monograph that is prepared for healthcare professionals and includes this Patient Medication Information by visiting the Health Canada website (<https://health-products.canada.ca/dpd-bdpp/index-eng.jsp>); the manufacturer’s website <http://www.Pfizer.ca>, or by calling 1-800-463-6001.
